ACTIVE LINE SANTO

CLEANING KIT

with permanent marker,
cleaning cloth, cleaner, and
artificial leather sample

The new high-performance artificial leather by Active Line

With our artificial leather by Active Line, we focus on performance. „Santo“ is the first artificial leather by Active Line that offers high practical utility while meeting the expectations of pleasant tactile sensations.

The new Active Line artificial leather is phthalate-free and remains highly flexible for processing. Moreover, its qualities are not susceptible to the typical brittleness associated with similar products, as its surface is free of polyurethane (PU). Additionally, the material surface excels at being able to easily remove stubborn stains caused by permanent markers or ballpoint pens. That’s why it is particularly well-suited for demanding environments in the contract sector, healthcare facilities, or fitness studios.

„Active Line Santo“ complies with international fire safety standards, is resistant to disinfectants, blood, sweat, and urine, and also repels water and oil.

The artificial leather offers a range of 31 solid colors.

Versatile, adaptable, individual - that's how the „Plaza“ collection presents itself in country-house style.

Carefree, close to the heart of nature. The traditional country-house style is an interior design style that brings comfort. How can you bring this atmosphere into your home? By combining cozy textiles, rustic wooden elements, and accessories made of natural materials such as ceramics, rattan, or clay.

Our furniture fabric collection „Plaza“ invites you to individually implement your interior design ideas. Whether it's a corner bench, sofa, or decorative pillows - it completes the authentic country-house look in your own home. 13 items create visual highlights: the pattern set featuring playful flowers and leaves, zigzag, stripes, and patchwork designs can be easily combined with each other. Two solids provide the perfect foundation for this.

Pastel pink, delicate yellow, light blue, or intense red - the diverse colors skillfully reflect the cozy country-house style.

The identity of Spotlight? Sophistication, elegant looks, and stylish colors.

A selection of seven versatile microfiber fabrics with distinctive textures combined with a luxurious high-low pattern. Spotlight impressively demonstrates how timeless elegance works.

All items in the collection are pleasantly soft to the touch and captivate with their appearance. A special highlight? The exclusive diamond quilting patterns Aurelio and Tenea Square, which are trendy eye-catchers.

In addition to neutral colors, modern blues, greens, and vibrant red tones complement the color range.
